

Account Validation Help & Disclaimer

This function enables a user to validate a National Sort Code (NSC) against an Account Number for the following Irish Credit Institutions:

- Allied Irish Bank
- Bank of Ireland
- Bank of Scotland plc.
- National Irish Bank
- Permanent TSB
- Ulster Bank Ltd.
- Some Credit Unions

The validation function uses a variety of modulus algorithms currently employed by Irish credit institutions (Banks). Upon entering an NSC and Account Number, the function will advise the user whether the numbers entered are valid according to the modulus algorithms for the institution in question.
